

Karndean Flooring

Part of the Karndean "Knight tile" range. The Onyx tile pictured is one of seven styles in the slate range.

Made from an exceptionally durable form of customised vinyl, Karndean flooring replicates all the beauty of natural flooring materials with none of the practical drawbacks. Whilst being virtually indistinguishable from the material which inspire it's designs, Karndean offers significant advantages in terms of design capability, maintainance and cost. Karndean ranges start from £23 sq.m. For more product information on the Karndean ranges please [click here](#).
